REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Stockholders
of Outset Global Trading Limited

Opinion on the Financial Statement

We have audited the accompanying statement of financial condition of Outset Global Trading Limited (the Company) as of December 31, 2019, and the related notes (collectively referred to as the financial statement). In our opinion, the statement of financial condition presents fairly, in all material respects, the financial position of Outset Global Trading Limited as of December 31, 2019 in conformity with accounting principles generally accepted in the United States of America.

Basis for Opinion

This financial statement is the responsibility of Outset Global Trading Limited's management. Our responsibility is to express an opinion on the Company's financial statement based on our audit. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (PCAOB) and are required to be independent with respect to Outset Global Trading Limited in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB. We have served as Outset Global Trading Limited's auditor since 2016.

We conducted our audit in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statement is free of material misstatement, whether due to error or fraud. Our audit included performing procedures to assess the risks of material misstatement of the financial statement, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statement. Our audit also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statement. We believe that our audit provides a reasonable basis for our opinion.

NOTE 1 BUSINESS AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Business

Outset Global Trading Limited (the "Company") was incorporated on February 26th, 2015 under the laws of England and Wales.

The Company is a registered broker-dealer under the Securities Exchange Act of 1934 and is a member of the Financial Industry Regulatory Authority, Inc. ("FINRA") effective March 29th, 2016.

The Company is engaged as an agent in the purchase and sale of equity securities of domestic and foreign corporate issuers over-the-counter as non-exchange member arranging for transactions in listed securities by exchange member. The Company operates pursuant to SEC Rule 15a-6 and has a business agreement in place with Outset Global LLP, a corporation under the laws of England and Wales. Outset Global LLP is an unregistered foreign broker-dealer who is not a member of SIPC.

The Company has a clearing agreement with its clearing agent. Domestic security transactions are cleared and carried through a U.S. clearing agent on a fully-disclosed basis. The U.S. clearing agent also performs record keeping functions and consequently, the Company operates under the (k)(2)(i) and (k)(2)(ii) exemptive provisions of SEC Rule 15c3-3. The Company clears all foreign security transactions through its affiliate Outset Global LLP pursuant to agreements the affiliate has with foreign clearing agents on an RVP/DVP basis. The Company does not hold customer funds or securities.

Use of estimates

The preparation of the financial statement in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Commissions

The Company buys and sells securities as an agent on behalf of its customers. Each time a customer enters into a buy or sell transaction, the Company charges a commission. Commissions and related execution and clearing expenses are recorded on the trade date (the date that the Company fills the trade order by finding and contracting with a counterparty on behalf of the customer and confirms the trade with the customer.) The Company believes that the performance obligation is satisfied on the trade date because that is when the underlying financial instrument or purchaser is identified, the pricing is agreed upon and the risks and rewards of the ownership of the securities have transferred to/from the customer and the counterparty.

Consulting income

Consulting income consists of consulting services. Fee income and expenses are recorded on the accrual basis of accounting.

ASC 842

The Company recognizes leases in accordance with Financial Accounting Standards Board Accounting Standards Codification (“FASB ASC”) Topic 842, Leases. This guidance requires public business entities to recognize a right-of-use asset and a lease liability in the statement of financial condition. The Company has elected an exemption to this guidance for its short-term office leases of less than twelve months and recognizes the lease payments on a straight-line basis over their remaining life. Management believes the impact of Topic 842 and the election of the exemption has no material impact on its statement of financial condition.

ASC Topic 606

The Company recognizes revenue in accordance with Financial Accounting Standards Board Accounting Standards Codification (“FASB ASC”) Topic 606, Revenue from Contracts with Customers. That guidance was amended to require public business entities to recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. The amendment is effective for the Company for fiscal years beginning after December 15, 2017. Management believes the impact of the amendment to Topic 606 has no material impact on its financial statement.

Cash and Cash Equivalents

The Company has defined cash equivalents as highly liquid investments, with original maturities of less than three months that are not held for sale in the ordinary course of business.

Functional Currency and Presentation Currency

Items included in the financial statement of the Company are measured using the currency of the primary economic environment in which the entity operates (the “Functional Currency”. The Functional Currency of the Company is United States Dollars (“USD”).

Foreign currency transactions are translated into the Functional Currency using the prevailing exchange rates.

Fair value measurement

FASB ASC 820 defines fair value, establishes a framework for measuring fair value, and establishes a hierarchy of fair value inputs. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. A fair value measurement assumes that the transaction to sell the asset or transfer the liability occurs in the principal market for the asset or liability or, in the absence of a principal market, the most advantageous market. Valuation techniques that are consistent with the market, income or cost approach, as specified by FASB ASC 820, are used to measure fair value.

The fair value hierarchy prioritizes the inputs to valuation techniques used to measure fair value into three broad levels:

Level 1. Quoted prices (unadjusted) in active markets for identical assets or liabilities that the Company can access at the measurement date.

Level 2. Inputs other than quoted prices included within level 1 that are observable for the asset or liability either directly or indirectly.

Level 3. Unobservable inputs for the asset or liability.
The availability of observable inputs can vary from security to security and is affected by a wide variety of factors, including, for example, the type of security, the liquidity of markets, and other characteristics particular to the security. To the extent that valuation is based on models or inputs that are less observable or unobservable in the market, the determination of fair value requires more judgment. Accordingly, the degree of judgment exercised in determining fair value is greatest for instruments categorized in level 3.

The inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, for disclosure purposes, the level in the fair value hierarchy within which the fair value measurement falls in its entirety is determined based on the lowest level input that is significant to the fair value measurement in its entirety.

FASB ASC 820, Fair Value Measurement has no material effect on this financial statement. At December 31, 2019, the Company held no Level 1, Level 2, or Level 3 investments.

Income Taxes

The Company is subject to corporate taxes in both the United Kingdom and the United States of America. The amount of taxes payable or refundable is recognized as of the date of the financial statement, utilizing currently enacted tax laws and rates. Deferred tax expenses or benefits are recognized in the financial statement for the changes in deferred tax liabilities or assets between years.

The Company recognizes and measures its unrecognized tax benefits in accordance with FASB ASC 740, Income Taxes. Under that guidance the Company assesses the likelihood, based on their technical merit, that tax positions will be sustained upon examination based on the facts, circumstances and information available at the end of each period. The measurement of unrecognized tax benefits is adjusted when new information is available, or when an event occurs that requires a change.

Effective for 2018 in the United States, President Trump signed into law tax reform legislation that the new rate structure is a flat 21%. The only impact reflected in these financial statement is the revaluation of the deferred tax asset and related allowance based on the reduced federal corporate tax rate. At December 31st 2019 the Company had a Federal Net Operating Loss of approximately \$530,000, a portion of which begins to expire in 2036, and a related Deferred Tax Asset of approximately \$110,000, all of which has been fully reserved.

As of December 31st 2019 the Company has an income taxes payable balance in the United Kingdom of \$176,169.

NOTE 2 TRANSACTIONS WITH AFFILIATES

The Company is a party to administrative services agreements with its affiliates Outset Global LLP and Outset Global Inc. The affiliates provide the Company with certain services and allocate the expenses in the area of compensation and benefits, administration, leasehold space, furniture and equipment, operational services, computers and related systems support, data and communication lines and equipment.

As of December 31st 2019 the Company has receivable balances with Outset Global Trading LLP for \$140,113 and from Outset Global Inc. for \$7,163.

NOTE 3 NET CAPITAL REQUIREMENT

The Company is subject to the SEC Uniform Net Capital Rule (Rule 15c3-1) which requires the maintenance of minimum net capital, as defined. The Company computes its net capital under the alternative method permitted by the net capital rule, which requires that minimum net capital shall not be less than the greater of \$250,000 or 2% of aggregate debit items arising from customer transactions. At December 31, 2019, the Company had net capital of \$897,466, which was \$647,466 in excess of its required net capital of \$250,000.

NOTE 4 LEASE COMMITMENTS

For the year ended December 31, 2019 rent and occupancy expenses include rent allocated per expense sharing agreements from Outset Global LLP and Outset Global Inc.

The Company entered into a lease agreement for office space with Regus effective October 1st 2017. The lease is structured as a rolling one month lease with three months' notice cancellation terms.

The Company entered into a lease agreement for office space with Regus effective December 9th 2019. The lease is structured as a rolling seven month lease with three months' notice cancellation terms.

NOTE 5 FINANCIAL INSTRUMENTS WITH OFF-BALANCE-SHEET RISK, AND
CONCENTRATION OF CREDIT RISK

In the normal course of business, the Company's securities activities involve the execution, clearance, and settlement of various transactions with its clearing brokers. These securities activities are transacted on a delivery or receipt versus payment basis and the Company reports such transactions on a trade date basis. The Company's customer's securities transactions are introduced on a fully disclosed basis with its clearing broker. Off-balance sheet risk exists with respect to these transactions due to the possibility that customers may be unable to fulfill their contractual commitments. The company seeks to minimize this risk through their Know Your Customer (KYC) procedures. As well, the firm may have 15a6 responsibility for Outset Global LLP's US customers as it relates to the above, with the same KYC procedures in place to minimize this risk.

Since the Company does not clear its own securities transactions, it has established accounts with its clearing broker for this purpose. This can and often does result in a concentration of credit risk with this firm. Such risk, however, is mitigated by the clearing broker's obligation to comply with rules and regulations of the SEC and FINRA.

The Company maintains cash deposits with banks and brokers. At times, such deposits exceed applicable insurance limits. The Company reduces its exposure to credit risk by maintaining such deposits with major financial institutions and monitoring their credit ratings.

Because the Company has operations outside of the United Kingdom, the Company's home country, there exists a possibility that operations located in the United States may be disrupted in the near term. Management seeks to minimize this risk by monitoring its foreign operations. Management does not consider any risk with its foreign operations to be significant.

NOTE 6 GUARANTEES

FASB ASC 460, *Guarantees*, requires the Company to disclose information about its obligations under certain guarantee arrangements. FASB ASC 460 defines guarantees as contracts and indemnification agreements that contingently require a guarantor to make payments to the guaranteed party based on changes in an underlying value (such as an interest or foreign exchange rate, security or commodity

price, an index or the occurrence or nonoccurrence of a specified event) related to an asset, liability, or equity security of a guaranteed party. This guidance also defines guarantees as contracts that contingently require the guarantor to make payments to the guaranteed party based on another entity's failure to perform under an agreement, as well as indirect guarantees of the indebtedness of others. The Company has issued no guarantees effective at December 31, 2019 or during the year then ended, except as described in Note 5 above.

NOTE 7 LEGAL CONTINGENT LIABILITY

The Company agreed to settle litigation in the amount of legal fees and costs with Arbor Financial Systems Limited in relation to an IT services contract from 2017. The Company has set up a reserve in the amount of \$25,000 related to this litigation and is included in accounts payable and other liabilities. Management does not believe the final settlement will be material.

NOTE 8 DUE FROM BROKERS

Amounts due from brokers at December 31, 2019 consists of cash deposits of \$1,713,761 and commission receivables of \$217,677.

NOTE 9 SOFT DOLLAR

The Company has entered into various soft dollar arrangements wherein research and other expenses are paid by the Company on behalf of the introduced business. In accordance with FASB ASC 940-20-25-3, the Company analyzes both the commission income generated from the soft-dollar arrangements and the research provided to determine if liability exists at year-end. At December 31, 2019, soft dollars liability was \$27,109 and is included in accounts payable and other liabilities.

NOTE 10 SUBSEQUENT EVENTS

Subsequent events have been evaluated through February 26, 2020, the date the financial statement was available to be issued, and no events have been identified which require disclosure.
